

Whaling Fire helps communities find strategic locations for the RASS Heli-Hydrant System

**TANK
STYLE**

Whether a community prefers metal tanks or concrete basins, the Heli-Hydrant stands by until needed

**BASIN
STYLE**

Colors vary according to landscape:

Pilot Activated

Strategically Installed

More Water Drops Per Hour

Magnify the water dropping capability of helicopters in your area with the Heli-Hydrant

Whaling Fire Line Equipment LLC.
16617 Gaspe Street
Canyon Country, CA 91351

COMMAND ACCESS VEHICLE (CAV)

CAV's pressurized, dust resistant compartment has 3 upward swinging doors. Configurations for the CAV compartment include the following:

- Command desk tops
- Plexiglass map boards
- Magnet dry erase board
- File and storage drawers
- Monitors
- Laptop stands
- Shelves
- SCBA brackets
- Tools
- Extinguishers
- Many more options available

CAV is available on any pickup: 2 or 4 door, short or long-bed versions.

THE WHALING SPECTRUM OF PRODUCTS

DIVERTER TEE

The diverter tee's castle grip handle allows the tee to smoothly slide out of the hose pack. There are no protruding handles to be kicked on or off accidentally. Water is diverted to the lateral or lateral and trunk line simultaneously

TRAINING

Online tutorials are available @

www.whalingfire.com

WHALING PACK

The Whaling Pack rapidly deploys wildland hose using the Walk Out method. This technique allows firefighters to deploy thousands of feet of hose quickly

PRODUCTS INCLUDE:

- RASS HELI-HYDRANT
- COMMAND ACCESS VEHICLE
- HOSE PACK
- DIVERTER TEE
- HOSEROLLER
- WHEEL TABLE
- HOSE TRAY
